

N^o 2770

A.D. 1894

Date of Application, 8th Feb., 1894—Accepted, 24th Mar., 1894

COMPLETE SPECIFICATION.

A New or Improved Receptacle for Antiseptic, Disinfecting, and Deodorizing Purposes.

ELEANOR MAUD WOODTHORPE, Married Lady, Washington Avenue Portsmouth, ARTHUR HENRY BALDWIN, Mineral Water Manufacturer, 10 Grove Road North Southsea, CHARLES GRAVES, Doctor of Medicine, Wilson Grove Southsea, do hereby declare the nature of this invention and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement :—

This invention relates to a new or improved receptacle for antiseptic, disinfecting and deodorizing purposes, and aims to provide a neat, and handy means of carrying compound of antiseptic, disinfecting and deodorizing qualities, and the same is fully illustrated in the annexed drawings.

Fig. 1, shows side elevation of our receptacle closed.

Fig. 2 side elevation of our invention open.

Fig. 3 plan of same.

a is the the outer casing in which the inner perforated case *b* slides controlled by springs *c*. *e* is a lid hinged to one end of the outer case *a* and through which the liquid or solid disinfectants are placed in the inner case *b* which slides in and out of the case *a*. The shape and size of the receptacle may be varied to meet the special requirements.

Having now particularly described and ascertained the nature of our said invention and in what manner the same is to be performed, we declare that what we claim is.

1. In receptacles for containing disinfectants, and such like an outer case *a* and inner perforated case *b*, springs *c*, all in combination substantially as described.

Dated this 7th day of February 1894.

E. EATON,
Agent for Applicants.
